Crew Schedule & Replacement Hours — June 2026

Every site visit in June, who was on it and for how long, and which employee hours replaced Kyle in the field.

How employee hours are treated.

- Employee hours worked **while Kyle is working**, on the same site or a different one, are payroll cost and are deducted from labour revenue. Kyle's own hours are never deducted.
- Employee hours worked **while Kyle is not working** are **replacement hours**: the employee is filling in for Kyle. They can't be deducted, so they are listed below and removed from the payroll cost.
- Example: Kyle works 8:00–12:00 with Kierran while Booker works 8:00–2:00 elsewhere. Only Booker's 12:00–2:00 (2 hours) are replacement hours.
- Wage rates: Kierran $27.00/hr · Booker $30.00/hr. Only Kierran's and Booker's hours are tallied here.

Daily schedule

Shaded rows contain replacement hours. Kyle's working time for each day is under the date. Kyle is shown in bold in the crew column.
